year of the existence of the GOLDEN away the blot upon the page of our ERA, it again changes hands and comet fair young territory's history \$ under a different, though not an entirely new management. While we look with pleasure at its past success, as a bright promise for the future, we do not consider it necessary or important, at this time, to recapitulate that past or the events with which it has been identified. What it has been is a just source of pride, not only to dirch through their farms. those who have had charge of its pages, but to the whole people of Lincoln county. The fact that this county has for three years, in her undeveloped state, sustained and built up so creditable a paper, speaks well for her, and is one of the best arguments to convince our eastern brethren that we are not so far behind them in civilization. as some of them are foolish enough to

As we look largely to the people of White Oaks and Lincoln county for their patrouage and support, so shall liked to help initiate His Royal High we endeavor to merit their approval by a truthful r presentation of such on the car with a butter paddle, for not her natural resources, and thereby show to the world outside that we are ad vancing with the grand march of progress throughout the great West. We shall strive to make THE Ena a worthy news-redium for the county, and also a reliable guide for all having or seeking investments here.

The editor of this paper is, personally, a Republican but the paper is, and will remain, independent. In public affairs we shall be controlled by no party, cilque or faction, believing that a firm, had pendent study for right and justice is more desirable for our people than a partisan support of any party, or connivance at the soff-h nims of may few who seek private aid through public channels. Questions of public policy, affecting the interests which we represent, will be fairly and squarely met as the come before us and demand attention. As we merit, we shall expect to receive, knowing that upon our own efforts depends, to a great ex tent, our success.

We haven't leased the paper, Major, but bought a controlling interest.
